

Masterclass on Best Practices for Call Mechanisms

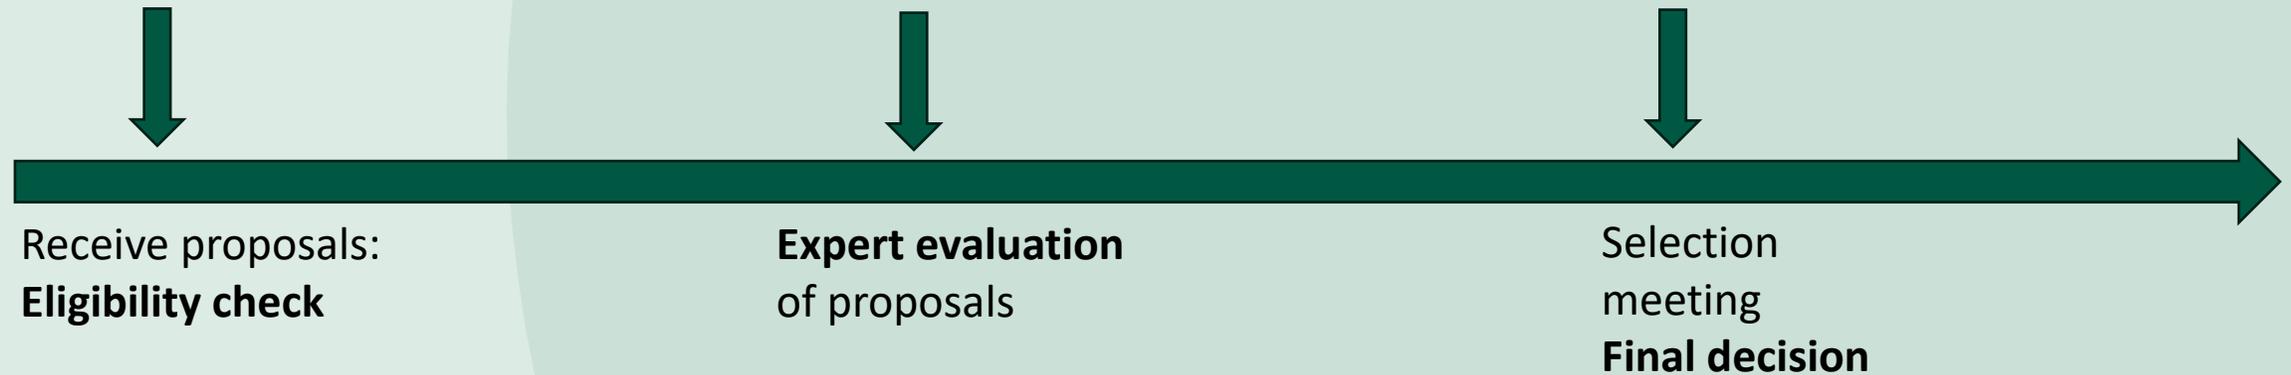

Redress procedure

Christian Breuer: transnational joint projects (SysCrop)

Malene Jakobsen: The Danish Organic RDD program

Redress procedure

- Organic RDD: 1-step procedure
- Transnational joint projects (SusCrop): 2-step procedure

An example from a national program:

Organic RDD

The organic research, development
and demonstration program

Financed by the Ministry of Food, Agriculture and Fisheries of Denmark

ICROFS

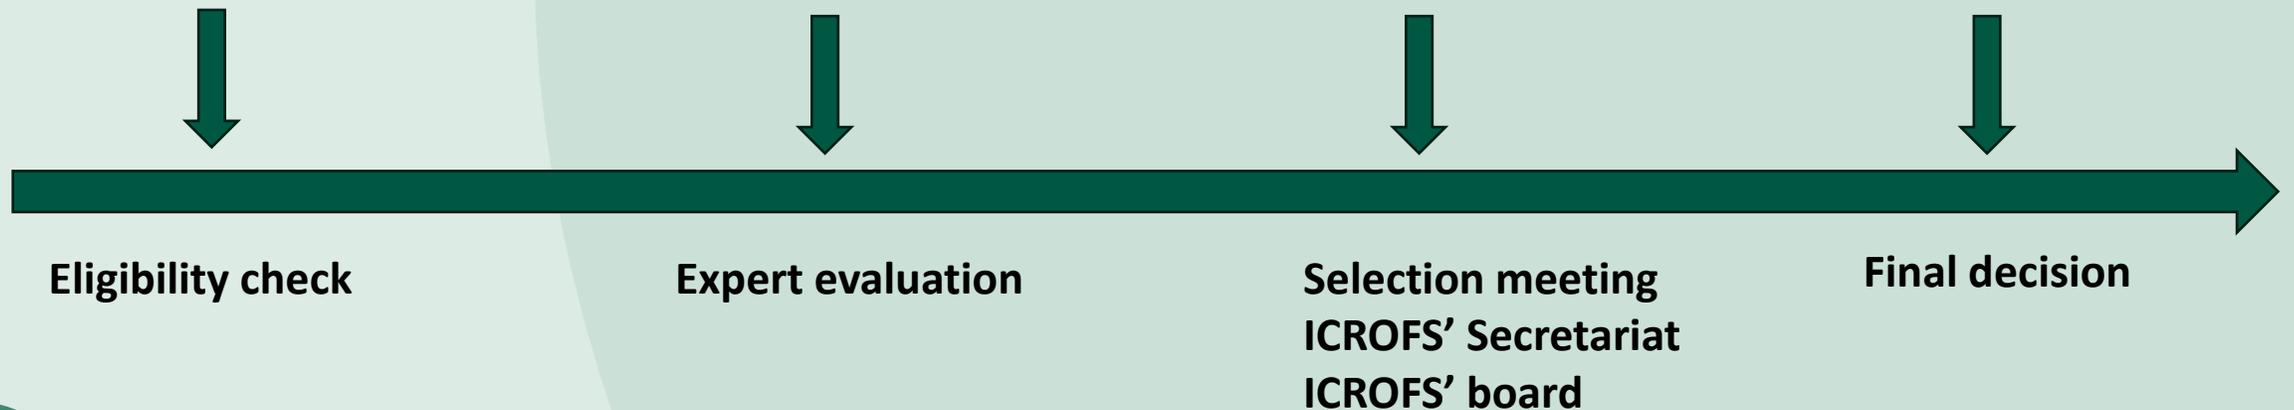

(International Centre for Research in Organic Food Systems)

- Existed since 1996
- "A centre without walls": initiates and coordinates research within organic farming
- Appointed and financially supported by the Ministry of Food, Agriculture and Fisheries of Denmark

Redress procedure

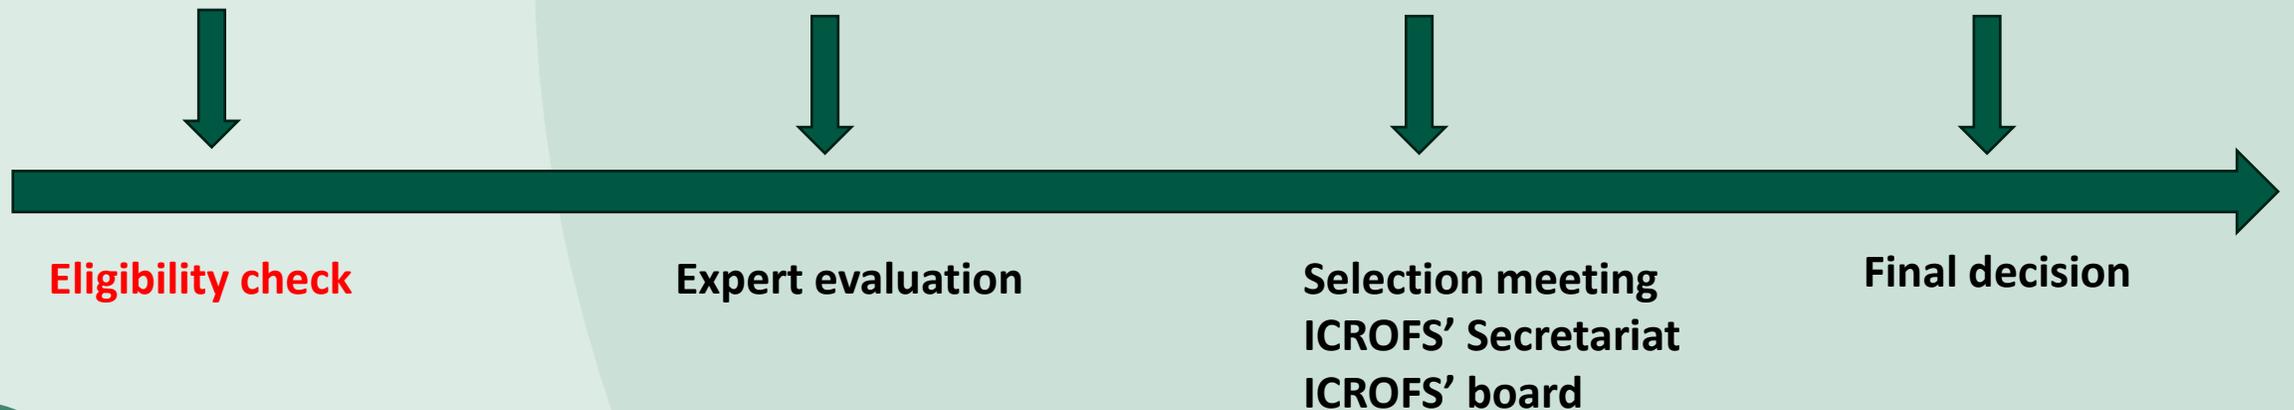

Organic RDD: 1-step procedure

- Max. 30 project applications
- Funding per year in the previous three years: 6.7 million EUR
- Funding in 2024: 9.3 million EUR

Eligibility check

- Applications arrive in due time
- All required documents available
- Contain research and development or demonstration

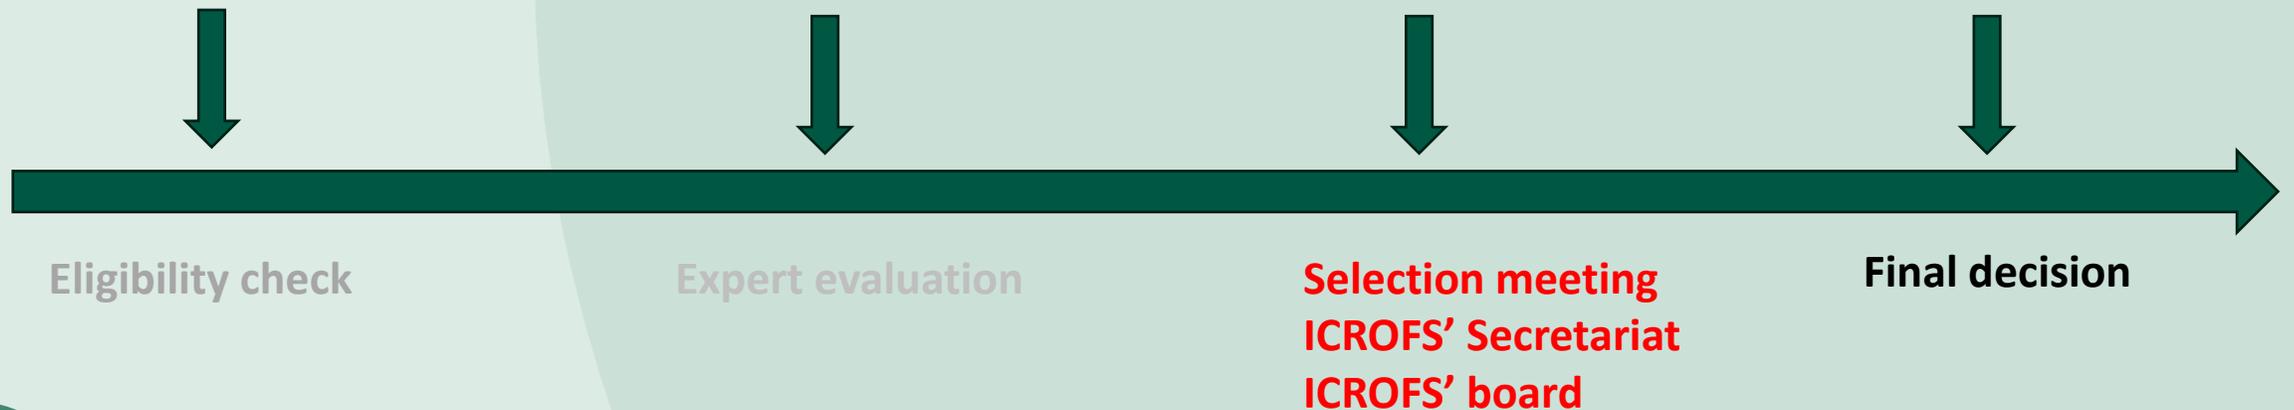

Expert evaluation

- Three experts per proposal → individual evaluation of the scientific part of the proposal
 - Must agree on a common evaluation within one week
 - Rejected if one score is below 3 (0-5): scientific part, project team
- Consultation process: 8 working days for applicants to respond to any misunderstandings in the evaluation.

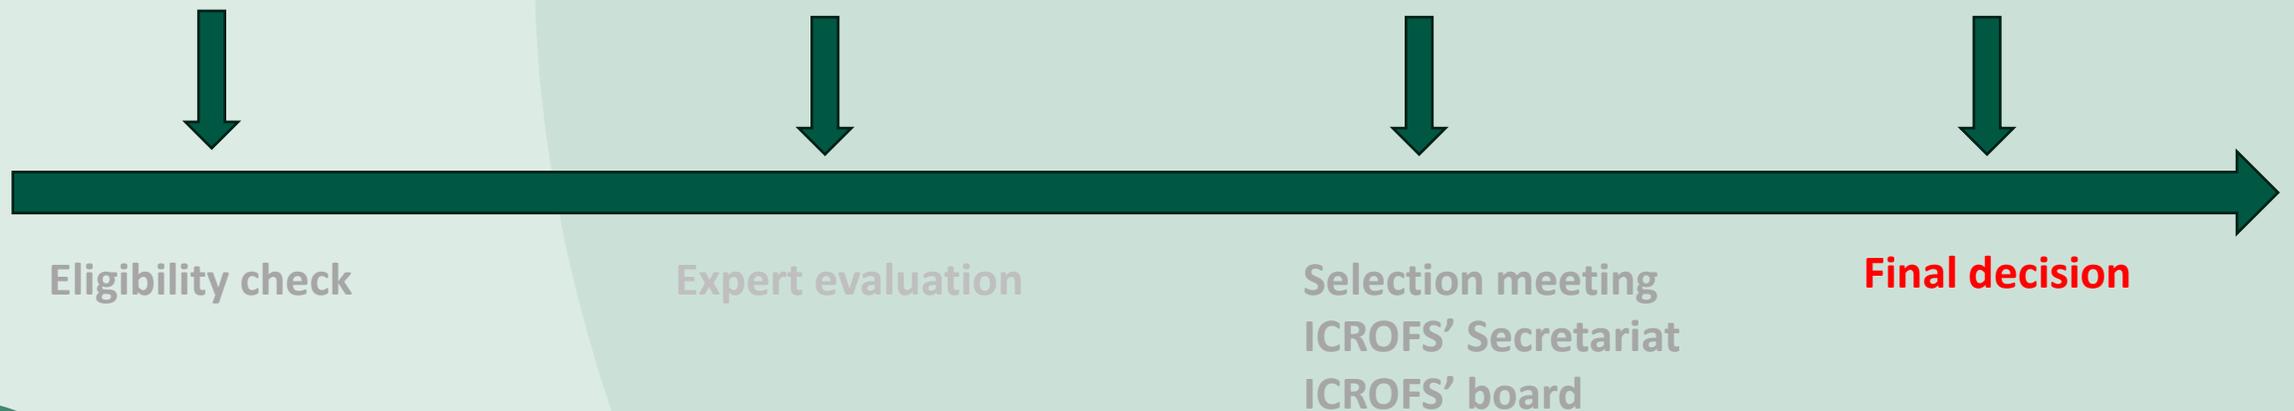

Selection meeting

- ICROFS secretariat prepares and present the project applications
 - ICROFS board decides which projects to be recommended for funding
- Consultation process: 8 working days for applicants to respond to any misunderstandings in the evaluation: experts and ICROFS board

Final decision

- Letters are sent to all applicants
- Within four weeks any complaints must be handed in → related to the correctness of the whole procedure e.g. regarding incapacity, NOT related to the evaluation of the application or the final decision.

Thank you very much for your attention
I am looking forward to our discussions
